Videolarm offers brackets to adapt our popular FusionDome™ and our MR7 to the leading network cameras. The FusionDome™ series features our standard outdoor wall mount, a pressurized wall mount, and the new RH7 vandal resistant, aluminum wall mount. Outdoor models include a 110 to 24 VAC transformer. The recessed ceiling mount MR7 is for indoor use. Use them in virtually any application.

Standard Outdoor

- WM10 wall mount standard
- Thermostatically controlled 24 VAC heater
- Optically clear acrylic lower dome
- Durable engineered plastic top, 94VO, UV protected

Pressurized Outdoor

- Pressurized to protect valuable equipment against dust, moisture, and insects

Vandal Resistant Outdoor

- WM10 wall mount standard
- Thermostatically controlled 24 VAC heater
- Optically clear acrylic lower dome
- Cast aluminum top
- Resists up to a .22 caliber bullet

Recessed Ceiling Mount Indoor

- 7" tinted dome
- Plenum rated metal top
- Includes decorative trim ring
- Can be installed from below ceiling
